What are Scholarships and Grants?

Goal: *Develop an understanding of the various ways you can have others pay for your technical education.*

The Basics:

1. What is the most important difference between a scholarship or grant and a student loan?
2. Is there a lot or only a little bit of money available to help pay for your technical education?
3. When you look at the Scholarship board on the Trades Hub and select any one of the technical schools, how many scholarships do you usually see per school?
4. Can you think of a few reasons why a person or an organization might want to provide you with money to pay for your education that you do not have to pay back?
5. What is a Federal Pell Grant? How do you qualify for one?

6. What is a Wallin Scholarship?

7. What is it called when your employer pays for your technical education? Why might they do that?

8. What is one very important thing to write on your calendar when you are applying to technical schools?
